

Liverpool Ramblers Policies/guidelines

Disabilities

Liverpool Ramblers Group aims as far as possible to be inclusive. Participation in the Group's activities by a person with physical or mental disabilities will always be considered and where possible welcomed.

However important guidelines will always have to be taken into account regarding the safety and well being of that person, the safety and well being of the other participants and the responsibility required of the leader.

Where any of these considerations is likely to be compromised Liverpool Ramblers would have to refuse a request to participate in an activity of the Group.

General Committee.
